

COMMUNITY USE OF SCHOOL EQUIPMENT

School-owned equipment may be loaned only to reputable organizations not planning to use the equipment for personal, private, or commercial gain. The Attendance Center Administrator to whom the equipment is assigned must approve the person making the request.

No rental charge shall be made, but such organization shall return the equipment in proper condition at the time designated by the Administrator. The individual borrowing the equipment shall pay for any damage to the equipment.

When the Administrator is in doubt as to the proper lending of school equipment, the Superintendent of Schools should be consulted.
