

**VENDING MACHINES**

Vending machines are often promoted as a revenue-producing source for the school activity fund. Vending machines dispensing nutritious food and/or beverages to students are permitted on a limited basis in High Schools at the discretion of the principal subject to the approval of the Superintendent of Schools. Vending program management, to include financial management and product selection, shall be the responsibility of the principal (or his/her designee).

In no case shall vending machines be operated in the building during the period of time ½ hour prior to the first lunch/breakfast period to ½ hour after the last scheduled lunch/breakfast period.

Beverage vending machines for use after school hours, at athletic events, or at special events, are authorized at the discretion of the principal.

Vending machines are authorized in teachers' lounges subject to the approval and management direction of the principal.
