

Graduation Requirements

In pursuit of its mission to ensure that all students reach their learning potential, the Board of Education has established the following graduation requirements.

District academic standards

All students must meet or exceed the district's academic standards prior to becoming eligible to graduate or complete the requirements and goals as listed on a student's Individualized Education Program (IEP), which may include modified academic standards.

Graduation from high school is a culminating event that results from the foundations built at the elementary and middle levels. Graduation is a collaborative effort among levels in a student's public school career. Each level of school and each staff member or parent/guardian who instructs or counsels a student shares responsibility for the ultimate ability of that student to demonstrate proficiency in the district's academic standards and to meet the expectations for graduation.

Units of credit needed

A total of 52 high school credits are required for graduation. A credit is defined as the amount of credit given for the successful completion of a course which meets four days per week for a minimum of 50 minutes daily for at least 18 weeks or the equivalent. Successful completion means that the student obtained a passing grade for the course.

The following criteria shall entitle a student to a high school diploma:

- Achievement in content standards as demonstrated by mastery of the curriculum which may include, but is not limited to, daily classroom assignments, the Colorado Student Assessment Program, the district assessment program, classroom assessments, and student participation in, and completion of, assigned projects.
- Completion of the requirements and goals as listed on a student's Individual Education Plan (IEP) which may include modified content standards.
- Completion of 52 high school credits in the prescribed categories listed below.

Required credits/courses

Credits	Area	Required Courses
8	Language Arts	
8	Math	
6	Science	
6	Social Studies	Civics, American History
2	Computers	
2	Fine arts	
2	Physical Education	
6	Academic Electives	
12	General Electives	
Total		
52		

Demonstration of College and Career Readiness

Starting with the class of 2021 students must demonstrate college and career readiness in English and math. See IKF-R for specific requirements.

Physical Education

The physical education requirement may be waived if a student completes 4 seasons of a competitive sport. To have the physical education requirement waived, the student must begin and end a full season at any competitive level. The student must participate in practices, and compete at the level appropriate for their ability. Documentation must be submitted to the principal to support requirements have been met. Having the physical education requirement waived will not alter the number of credits required for graduation.

Credit from other institutions and home-based programs

All students entering from outside the district must meet the district graduation requirements. The principal shall determine whether credit toward graduation requirements shall be granted for courses taken outside the district. Students who are currently enrolled in the district and wish to obtain credit from outside institutions, or through "online" programs, must have prior approval from the principal.

Class rankings and grade point averages

Graduating seniors shall be ranked within the graduating class for each high school upon the basis of grade-point averages for the four-year program, excluding the last semester of the senior year.

Grades for regular classes will be given the following values: A=4, B=3, C=2, D=1.

Grades for advanced placement classes will be given the following values: A=5, B=4, C=3, D=2.

After a course has been passed, no future grade earned in the same course shall be used to determine class rank or grade point average. The student with the highest-class rank will be valedictorian. When more than one student holds the numerical one rank (rounded to 100th), all students holding the rank will be declared co-valedictorians.

Independent study

Independent study, work experience and experienced-based programs approved in advance by the principal may be taken for high school credit. Students must submit a request for approval that includes a summary of the educational objectives to be achieved and monitored by a faculty member.

Student course load

The course load for freshmen, sophomores, juniors and seniors shall be a minimum of 14 credits per school year. Students who wish to take fewer credits in any given school year must obtain advance permission from the principal.

Years of attendance

The Board of Education believes that most students benefit from four years of high school experience and are encouraged not to graduate early. However, in some cases, students need the challenge provided by postsecondary education or other opportunities at an earlier age. Therefore, the principal may grant permission to students wishing to graduate early, provided the student has met all district graduation requirements.
